As a consultant I help my customers with process enhancement, leadership and project management. My experience is mainly from multinational large and medium sized organizations. As an employee, I had roles such as Deputy Managing Director, Quality Manager (ISO 9001), Operations Manager and Finance Manager.

I am positive, energetic and results-driven. I am focused on targets set and I love working with people to accomplish goals.

My background is more general than specialized which helps me to support my clients in cross-functional change projects. I enjoy working in multicultural and international environments and my objective is to always create a positive atmosphere that enables creativity and effectiveness from people involved.

Example projects

- Process mapping & risk assessment (Supply Chain, Production & Finance)
- Restructuring of finance functions
- ERP implementations
- SOX implementations
- Moving functions to and from SSC
- Second opinion and coach to managers

Education

- MBA, Henley Management College, UK
- DIHM, Business Finance, IHM Business School
- Finance & Logistics, Stockholm University
